Winnipeg, September 28.

Lord Aberdeen has reached Ottawa.
The defection of John Lays, ex M. P. P. for Toronto, turns out to be nearly half a million.
Owen E. Murphy, the famous boddler, is dead. His death will interfere with the trial now going on.
The failure of the Manitoba Northwestern railway has made huge inroads upon Sir Hugh Allan's fortune.
It is announced from Ottawa that Laurier and Davies will make a political stamping tour of Manitoba, the Northwest and British Columbia in November.
At a big conservative demonstration at Stratford, Ontario, on Wednesday, the mention of Laurier's name was cheered to the echo. The incident is regarded as most significant.
Gladstone made a great speech in Edinburgh on Wednesday night threatening the House of Lords with overthrow if they persist in opposing home rule. He declared the government had no intention of dissolving the house.

LOCAL.

HARRY DIX left on Tuesday's train on a visit to Regina.

Trains arrived on time on Monday night, with a heavy mail.

Train left Calgary two hours and forty-five minutes late.

Mr. and Mrs. I. S. Freeze returned to Calgary on Monday's train.

Drinks and chickens are unusually numerous in this district, this season.

A raft of lumber for Moore & Macdonald arrived from the mill on Tuesday.

Mrs. ROYAL, wife of Dr. P. Royal, arrived from a visit to Montreal on Monday's train.

A PACKAGE of bank bills which should have contained \$5,000 reached the Imperial bank here by Monday's mail \$110 short. The package had been opened before reaching Calgary as the Calgary postmaster had made a note of the fact on the parcel, but had taken no means to secure the contents after its leaving his hands. This is a matter that demands strict enquiry.

A MEETING of the Edmonton cemetery company was held on Wednesday evening last in the council chamber, the president M. McCauley, in the chair. The report of the secretary-treasurer showed \$114.07 cash on hand, and about \$75 due on account of sales of lots. The following directors were elected: M. McCauley, J. Cameron, F. Oliver, Geo. P. Sanderson, A. Taylor. M. McCauley was elected president of the board and J. A. McDougall was appointed auditor.

SERVICE was held for the first time in the new church of the Holy Trinity South Edmonton, on Sunday last at 3 p. m. by Rev. C. Cunningham. The carpenter work on the building is completed and the painting is in progress. The formal opening will take place after the seats are in position. The size of the building is 20x35, with vestry 20x12. A neat spire adds greatly to the attractive appearance of the building. Ridge & Peters are the contractors. The total cost will be about \$1,400.

A PARTY of six men and seven saddle and pack horses arrived on Friday last from Trail Creek in the West Kootenay mining district of British Columbia. They comprise three Kennedy Bros and a Mr. Stewart who remained at Edmonton, while the two other members of the party went on to the Athabasca Landing. They came across the mountains by the Crow's Nest pass. They intend to take up land in this section of country. Speaking of the Kootenay district of British Columbia they say that it contains the richest ore they ever saw. They are originally from the States.

To-day's train brings a tourist car with a party of eastern delegates, 2 cars with freight, 1 car hardware, 1 car oil, 1 car stoves.

The Winnipeg edition of Saturday Night has been received. This is a new venture of the irrepressible E. E. Sheppard of Toronto, who has made Saturday Night of this city such a success. Saturday Night is a twelve page five column paper, well printed, and containing excellent engravings. Eight of the twelve pages contain literary and descriptive matter of general interest and are the same in all the editions while the remaining four pages, are devoted to society and other matters pertaining to the city of publication. The Winnipeg edition contains all the society gossip of Winnipeg and surroundings, some well written comments on purely Manitoba and Northwest matters from a western point of view, sporting notes etc. The Winnipeg company is composed as follows: Hugh John Macdonald, M. P., president; T. C. Livingstone, vice-president; D. S. Curry, secretary-treasurer; E. E. Sheppard, W. F. Henderson and Dr. A. H. Ferguson, directors. These names are a sufficient guarantee that the paper will be kept up to such a standard as will make it worthy of support.

THAT EXHIBIT CAR.

The following letter was received by the BULLETIN, with annexed correspondence enclosed. Having no desire to do otherwise than deal fairly with the railway company—while owing allegiance only to the country and the people in it—the BULLETIN gives the correspondence in full:

WINNIPEG, MAN., Sept. 19th, 1903.
To the Editor of the Edmonton BULLETIN,
Edmonton, Alberta.

DEAR SIR:—The editorial "A car or no exhibits go" that appeared in the BULLETIN of the 14th September was evidently written under a misapprehension of the facts. Permit me to lay before you the enclosed correspondence that took place between the secretary of the agricultural society and myself regarding this matter. You will see from Mr. Young's letter of the 17th August that he promised to wire the following week naming the date when the collection would be ready. Nothing was, however, heard until the 7th September. It was then found that there was no available baggage car nearer to Edmonton than Winnipeg, and knowing that it was important to save the time that would be lost in sending a car all the way from Winnipeg to Edmonton I telegraphed to ship samples by freight to Winnipeg and that they would be transferred to baggage car here, suggesting at the same time, that for convenience of handling and to save the samples from damage while the transfer was being made, they should be put in cases.

I am sure it is a subject for general regret that the refusal to ship in an ordinary box car which only differs from a box baggage car in having cast iron instead of steel tire wheels should have caused sufficient delay to prevent the exhibits from being shown at some of the principal fairs in the east. I think that the treatment this department has accorded the Edmonton district in the past in the matter of bringing its agricultural advantages before the public, and that three delegates were furnished with passes to accompany the exhibits, ought to have been a sufficient guarantee to satisfy those who had this matter in hand, that no action would be suggested other than that which arose from a desire on the part of the company that the exhibits should be sent in a way that would best preserve them from harm and give them the quickest dispatch with the means available at the time.

Yours truly,

L. A. HAMILTON,
Land Commissioner.

COPY OF CORRESPONDENCE.

EDMONTON, ALTA., 17th Sept., 1903.
L. A. HAMILTON, Esq., C. P. R. Land Commissioner, Winnipeg, Manitoba.

DEAR SIR:—Yours of the 18th instant is received. Re date of shipment of car I may say that it will be hard to give the exact date as it will depend largely on the weather which for some time past has been all that could be desired. I think, however, that about the first week in September or possibly earlier everything will be ready.

Would it be possible to get something better than the ordinary box car, say a travelling coach with the seats removed. This would give us an opportunity to make a much better display than would the box car, being roomier and lighter. It is difficult to show all our productions in the cramped space afforded by a box car such as we had last year, and as we wish to make a very complete exhibit we hope you will be able to grant this request. I will wire you next week as to date when car will be ready as I will be able to form a pretty accurate idea of the matter by that time.

Yours truly,

(Sgd) CAMPBELL YOUNG,

Secy-Treas. Edmonton Agricultural Society.

REPLY.

WINNIPEG, MAN., Aug. 21st, 1893.
CAMPBELL YOUNG, Esq., Secy-Treas. Ed. Agr'l Society, Edmonton, Alta.

DEAR SIR:—I have received your letter of the 17th instant with regard to exhibits. We will endeavor to get a box baggage car for transportation of your exhibits in order that we may give them special dispatch from Winnipeg to the east. This is the best we can do. Samples will have to be removed from the car before they are exhibited at Eastern fairs. This will also be in the interests of your district, as they can be seen by more people than could conveniently visit a car.

Yours truly,

(Sgd) L. A. HAMILTON, per F. T. G.
Land Commissioner.

TELEGRAM.

EDMONTON, Sept. 7th, 1903.

L. A. HAMILTON, Winnipeg.
Everything ready awaiting promised car. Agent here has no instructions. Names of delegates, George Long, James Portie and T. Mounier.

(Sgd) CAMPBELL YOUNG.

REPLY.

SEPTEMBER 8th, 1903.
CAMPBELL YOUNG, Edmonton.

Please ship samples by freight consigned to me here. I will see that car receives dispatch. Would be well to have samples packed in boxes eight feet long, twenty-two inches wide and twenty-two inches deep for convenience of transshipment here to baggage car. Passes for delegates go by first mail.

(Sgd) L. A. HAMILTON.

TELEGRAM.

EDMONTON, Sept. 9th, 1903.
L. A. HAMILTON, Winnipeg.

Samples are ready to be placed in car as soon as car is supplied as promised. Decline to forward samples in cases.

(Sgd) M. McCauley.

REPLY TO TELEGRAM.

September 9th, 1903.
M. McCauley, Edmonton, Alberta.

Agent will place box car at your disposal. Freight charges will be paid by land department. My suggestion as to casing was to facilitate shipment from Winnipeg. All our own samples for Toronto and other shows have been sent from here in that way.

(Sgd) L. A. HAMILTON.

The facts as set forth in the foregoing correspondence appear to be that the railway company were asked for a coach in which to ship the exhibits. They replied that a box baggage car was the best they could offer. The samples were ready at the time mentioned by the secretary in his first letter as the time at which they probably would be ready, although he did not advise the company before hand of the fact by wire, as he promised, no doubt considering that it was only necessary to wire if the date he had mentioned could not be met. When the samples were ready the car was not and the request to ship samples in cases by freight was met with a flat refusal by the president of the Edmonton society (who was the most energetic worker in getting up the car) and gave rise to the remarks which appeared in the BULLETIN to which Mr. Hamilton objects. It will be admitted on study of the correspondence that the company did not act up to the letter of the arrangement made. The only question is as to how far the agricultural societies and the BULLETIN were justified in supposing that the spirit would be deviated from as well. This is a matter that must be decided very much according to the point from which it is viewed. No doubt the railway company having interests throughout the Northwest would consider chiefly whether the exhibit sent from Edmonton would add materially to the Northwest exhibit as a whole. On the other hand the agricultural societies who got up the exhibit did so expressly with a view of proving beyond doubt just how far and in what particulars this region excelled all other portions of Manitoba and the Northwest. This may or may not have been a proper thing to do, but in dealing with this question it must be considered that that was what was intended, and it was only for this purpose that the money was spent and the trouble taken. In order that this end should be certainly attained it was necessary that there should be a suitable car (hence the request for a coach) and also that the car should be fitted up right here, where everything necessary would be available and where the best possible arrangement of the samples could be made. When it became evident that the car could not be fitted up here, and when in fact it became apparent that it was intended to make the Edmonton exhibit a part of a general exhibit for the Territories, thereby taking from it that distinctive character which the local promoters had designed, it was not a question of intentions on the part of the company—it had become a matter of fact that the expenditure incurred had been to some extent thrown away. This being the case the next point was: What grounds had the agricultural societies for believing that after our exhibits arrived in Winnipeg they would be dealt with to the best advantage as a special advertisement for this district? While no person who has the honor of the acquaintance of the land commissioner of the C. P. R. has or can have any doubts as to his good will or his good faith, he himself would probably admit that he is neither all-present nor all-knowing, and that unless he is both, matters in more or less direct connection with his department may take a course that they would not take were he possessed of these attributes. Whether the facts justify the impression or not the fact remains that there is a very general impression in this district that exhibits sent from here in the past have not been properly credited to their place of growth. It was the existence of this feeling that was the motive for getting up the car, the intention being to put the district right in the eyes of the public once for all. When the existence of this feeling of mistrust in outsiders was so strong as to cause an expenditure of nearly \$400 to be incurred in regard to this car and the delegates to accompany it, there is surely no fair ground for complaint when that same feeling

manifested itself strongly on a clear deviation from an express promise, and on a proposition for a new arrangement, which, no matter how good the intentions were, certainly on its face was of such a nature as would not have been considered for a moment in the first place by the parties interested.

Mr. Hamilton's explanations, and the reports that have been received from the delegates, are proof that his intentions were and are entirely fair, from his point of view; but that does not and did not relieve either the agricultural societies or this paper from the obligation to protect the interests of the district from the district point of view.

EDMONTON EXHIBIT.

Free Press.

The best way to successfully advertise a country and show in the most positive manner possible that all the creditable things about it are true, is to actually demonstrate and show to the people you wish to reach the resources of that country. The people of Edmonton believe that their district is second to none in an agricultural way, and that if these facts were made known to the farmers of the west they would secure a large share of the immigration. From an inspection of their exhibition car which arrived from the west last night, it is quite easy to believe that they are correct in their belief, and they have gone about advertising the country and its resources in the most practical and convincing manner possible. The car is completely filled with wheat, oats, barley, grasses, timothy, flax, hemp, coal, and oil, tar, iron ore, vegetables, flowers and Saskatchewan gold. Some of the wheat is really grand and will sell out early grain to the head, and many of the heads of oats will give 120, just plucked in a bushel from a sheaf. Among the varieties of wheat mention may be made of the Red Chief, the Russian Azel, Red Five, Club, Tennessee, and the Ladoga, the straw is mostly five feet long, firm, and of good color. Of these grasses there are fifteen different varieties, including the pea grass noted for its nutritious quality. Some of the samples of swamp or pampas grass, blue joint and thatch grass, are over seven and eight feet long and when seen arranged in bunches, with their different shades of color, make a fine showing. The car is in charge of Geo. Long, Jas. Forte and Adolph Munier, who have collected the samples and exhibits from all parts of the Edmonton district, and they will accompany the car through the east.

RAILWAY RATES.

EDITOR BULLETIN.

Re reduced tariff. The Calgary "Tribune" of 29th instant contains a letter from Mr. Feehan, agent C. P. railway, Calgary, correcting the statement made by the writer, that the reduced grain tariff was 50c per 100 lbs on a 50 mile haul. He says it is 13c per 100 lbs. We wish he could have added, that the proper charge of 5c a mile passenger tariff, and that proper car accommodation, and the wretched train service had also been attended to, and reduced to something reasonable, without mentioning anything about grain and vegetable rates to the natural markets, viz. Edmonton to Macleod, and all points on main line of C. P. railway west of Calgary to Vancouver, 820 miles. No special tariff is advertised from Edmonton south and west, where Northern Alberta could ship to advantage, if permitted by our only connecting link: the C. & N. W. railway. The Canadian Pacific railway takes particular pains to advertise a low grain rate from Edmonton to Fort William, 1470 miles, 33c per 100 lbs. What is it for? Certainly not for the C. P. railway to look for one moment, that Edmonton would find a market at Fort William for its grain, when brought into competition with Brandon, whose rate to Fort William is 10c per 100 lbs, showing a loss to us of 14c per 100 lbs if we ship there. Being a poor, ignorant lot of settlers in Northern Alberta, it does not do for us to suggest—merely suggest of course—that the C. P. railway have any ulterior design, in quoting a 33c grain rate for a 1470 mile haul. Say for instance, in case a lot of unfortunate beggars get stuck on the tail end of some of their many branches, with prohibitive 5c a mile passenger rates, and grain and vegetable rates to the natural markets, and have wretched mail and train service, and in consequence the settlers grumble and try to have their situation improved, the C. P. railway hold up their hands in horror and exclaim, (so that they can make use of it, through the press subsidized by them throughout Canada) What an ungrateful people you must be; are we not giving you a 33c per 100 lb rate for 1470 miles of a haul? We neckily say, yes, your benevolence is past all understanding, but being an ignorant lot of settlers, we would like to know whether you are not trying to cut your own throats, with your excessive benevolence? We commend for the consideration of the government and the syndicate, the Calgary "Tribune's" editorial of 29th instant, headed "Consider seriously." We are growing tired.

"SETTLER."

IMMIGRATION.

The Regina Standard of a recent issue has the following regarding an immigration policy for the local government of the North-West: We contend that it is not the bringing in of new settlers, so much as the looking to the necessities, contentment and comfort of those whom we have already induced to come in, that tend to the up-building of a new country. Every province of the Confederation is represented among the settlers of this Northwest. England, Scotland, Ireland and Germany are well represented. The border states of the great republic that is next door neighbor to us, are all represented here. Let the Local government lend its every energy to the betterment of these people's condition. This is its first and its only duty. Let Mr. Hamilton make every effort to devise means whereby those who come here, buoyant with hope, and who are bravely struggling against the adversities incidental to pioneer life, may be enabled to realize a reasonable measure of their expectations. Let him do this and we are convinced that it will be altogether unnecessary that he should continue to send hired "speculators" to induce our friends and relatives to come hither to abide with us. Without messengers carried by the mails across the broad Atlantic, or to the eastern seaboard and over the border, will, at the hands of those who sagaciously await and carefully scan them, do more effective work than thousands of well paid orators speaking in public halls and loaded down with scrolls, plants, pamphlets and lime light panoramas. We do not wish it inferred that our people are in a state of general discontent, but it cannot be denied that there is a great deal of it. The duty of endeavoring to remove this discontent does not lie with the local government alone. It has not given rise to it. An excessively high tariff and freight rate extortions, together with frequent and sometimes vexatious changes in land regulations, are the principal sources of it. The local government cannot remove these. The assembly has done its duty in frequently memorialising the federal authorities regarding them. But the meagre grant which

is handed us for internal Territorial purposes should in our opinion be used exclusively for such purposes. Let not the grant to schools be reduced in order to enable a few thousand dollars to be frittered away on fanciful immigration schemes. Let the agricultural societies be even more liberally supported than at present. Let us have more and better roads, culverts and bridges. During the hard times, consequent upon the low price of grain, let the revenue be spent in the country, and let it be as widely distributed as possible. We have as fine a country as the sun ever shone upon. During two decades it has been extensively advertised—by methods wise and otherwise. The Dominion government has spent thousands, yea millions of money to induce population. If the results from this vast expenditure are unsatisfactory, what can we expect to achieve with \$2,000? The annual federal vote for immigration purposes does not fall far short of a sum equal to the whole Territorial revenue. Why are not the results commensurate with the expenditure? Are the silent messengers at work counteracting the effect? If so our advice to the local government, to devote its best attention to the welfare of the immigrants we now have, may contain a valuable pointer for the federal government also."

Empire Toronto: "The Saskatchewan exhibit on the south side of the C. P. R. building was a centre of attraction for thousands of farmers from early morning until evening yesterday. The districts of Kinistino, Prince Albert and Cumberland have undoubtedly played a trump card in the line of advertising the resources existing there. Mr. Stovel who is in charge of the Saskatchewan exhibit had a busy time replying to the thousands of enquiries regarding the Saskatchewan country, and giving information generally about the district he represents."

A sensation was caused in Montreal on September 21st by the suicide of Fred. Campbell, junior partner in the well-known paper firm of Boyd, Ryrie & Campbell, who killed himself by firing a bullet into his heart at his home, Palace street. The firm is now in difficulty with the customs authorities over the recent smuggling of a large quantity of pens into the United States, for which arrests have been made by the American authorities.

Moosomin Spectator: The reduced railway tariff applies to grain, flour, oatmeal, millstuffs, flaxseed, oilcake, potatoes and hay in carloads, and amounts to an average reduction of from three to six cents per 100 pounds. The rate to Port Arthur from all stations between Grenfell and Fleming is twenty-one cents per hundred pounds.

M. F. Murphy of Grand Forks shot and killed a man named Link who had assaulted Murphy's six year old daughter. Murphy was a bank president and prominent citizen.

The Moosomin Spectator states editorially that the experiment of wholesale pauper colonization at Saltcoats, Eastern Assiniboia, has been a flat failure.

The Moosomin Spectator says the first hard frost of the season came on Tuesday morning, September 19th.

The Earl of Aberdeen was sworn in as governor general of Canada on September 18th.

The Lethbridge News of September 21st mentions that snow was falling there at that time.

A newspaper is not a producing industry, but if properly conducted it assists and stimulates production and progress more than any other single agency of like cost. Money spent towards the support of a newspaper is almost entirely spent within the town in which the paper is published and is therefore not lost to the business of the town.

The local newspaper represents the district in which it is published to the outside world.

Support your home paper liberally if it deserves support, so that it can give the best possible impression of your town and district as a field for immigration and investment.

WEDNESDAY, September 27.
Communications were received from R. W. Smith, re delinquent, C. B. F. Kirkpatrick, re safe, D. Braithwaite, health report, Edmonton & Flater, re fire hall, E. P. Leacock, letter of courtesy.
McDonald—Strang—moved that the report of the finance committee be adopted.
Strang—Gallagher—moved that by-laws 40 and 41 be read three times. Carried by a large vote.
The turning officer reported that by-law 50 had been assented to by the ratepayers, 14 voting for and none against it. The by-law was then read three times and passed.
The report of the board of works re local improvements made pursuant to by-law 40 was read.

McDonald—Strang—moved a resolution declaring that the life time of the local improvements made under by-law 40 was ten years, that the total cost under the second petition was \$5,195 in all, that the value of the property chargeable with the cost of improvements was \$70,398, that only \$98.82 of the cost be borne by the town at large, that the property be charged per frontage according to the report of the board of works, and that the special taxes be collected at the same time as the general taxes and in such amounts as will pay the interest and provide a sinking fund that will clear off the indebtedness in ten years.

McDonald—Strang—moved a like resolution regarding improvements under by-law 41, the cost having been \$1,228.55 and the value of the property affected \$21,625.
Sanderson—Gallagher—moved that a number of persons whose property had been omitted from the assessment roll be added to the collector's roll for 1933, the total value of the property affected being \$7,542.
Sanderson—Gallagher—moved that the council sit as a court of revision regarding the special frontage assessment on Wednesday, October 27th, 1933, at 8 p. m. in the council chamber.

HOMESTEAD REGULATIONS.
All even numbered sections (excepting 8 and 20) are open for homestead entry at any time after the 1st day of a family, or any male over the age of 18 years.

ENTRY.
Entry may be made personally at the local land office for the district in which the land to be taken is situated or at the homestead district office, or application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for entry to be made by the intending settler near the local office. To make the entry for him. Entry fee \$10, or if cancelled land \$20.

DUTIES.
Under the present law homestead duties may be performed in three ways, to be decided on making entry:
1. Three years' cultivation and residence, during which period the settler must not be absent for more than six months in any one year without forfeiting the entry.
2. Residence for three years within two miles of the homestead and actual residence for 3 months in a building house not prior to or after the payment of taxes. Taxes must be broken the first year after entry, 15 acres additional in the second and 15 in the third year; 30 acres to be in crop the second year, and 25 acres the third year.
3. A settler may reside anywhere for the first two years, in the first year breaking 5 acres, in the second year breaking and breaking additional in the building a habitable house. The entry is forfeited if residence is not commenced at the expiration of 2 years from date of entry. Thereafter the settler must reside upon and cultivate his homestead for at least six months in each year for three years.

APPLICATION FOR PATENT.
Six months' residence must be given in writing to the Commissioner of Dominion Lands, Settler, and his intention prior to making application for patent. PRE-EMPTIONS are by law abolished, and may not be entered for after 1st January, 1930.

A Second Homestead.
may be taken by anyone who has performed the duties to entitle him to a certificate of recommendation to the first homestead on or prior to the second day of June, 1930.

THE EDMONTON BULLETIN.
(SEMI-WEEKLY)
Telegraphic News,
General News,
Local News,
All the News.
104 PAPERS
—IN A YEAR FOR—
\$2.00.

News of Edmonton and surroundings up to hour of issue.
News of the world by telegraph up to day of issue and from two to five days ahead of any other paper reaching Edmonton.

Controlled only by the proprietor and therefore always ready and willing to speak out for the good of the town and district.

THE BULLETIN is read more generally throughout the Edmonton district than any other paper.

If you want to do business in the Edmonton district you can reach more of the people with a less expenditure of money through the advertising columns of the BULLETIN than by any other means.

Fair advertising rates charged, and like rates to all parties.

No advertising of a questionable nature admitted if its character is known.

THE BULLETIN Printing office is second to none in the Territories. Only first-class type, machinery and paper employed. Printing of all kinds done promptly, neatly and cheaply. Call and see samples of work, and get prices before ordering your printing elsewhere.

A newspaper is not a producing industry, but if properly conducted it assists and stimulates production and progress more than any other single agency of like cost. Money spent towards the support of a newspaper is almost entirely spent within the town in which the paper is published and is therefore not lost to the business of the town.

The local newspaper represents the district in which it is published to the outside world.

Support your home paper liberally if it deserves support, so that it can give the best possible impression of your town and district as a field for immigration and investment.

There is big money for a new town in having a live and interesting paper.
